## [Part B of the Proposal]

Part B of the proposal contains the details of the proposed research and training programmes along with the practical arrangements planned to implement them.

Applicants must structure their proposal according to the headings indicated in the Part B proposal template

A Word version of the submission template can be downloaded from the Electronic Submission Services of the Commission. Applicants must ensure that proposals conform to this layout and to the instructions given in this Guide for Applicants

## [Part B of the Proposal]

The maximum total length of **sections 1 to 3** of Part B of the proposal is **30 pages**

There is no page limit per section. Within the overall page limit, applicants are therefore free to decide on the number of pages dedicated to each section.

Please remember that it is your responsibility to verify that you conform to page limits. **Experts will be instructed to disregard any excess pages above the 30 page limit.**

The **minimum font** size allowed is **11** points. The page size is **A4**, and all **margins** (top, bottom, left, right) should be at least **15 mm** (not including any footers or headers). Ensure that the font chosen is clearly readable (e.g. Arial or Times New Roman).

## [Part B of the Proposal]

**Literature references should be listed in footnotes**, font size 8 or 9. However, regardless of the format used, all footnotes will count towards the page limit

Part B of your proposal carries as a **header** to each page the proposal **acronym** and the **implementation mode** to which you are applying (i.e. ETN, EID or EJD). All pages should also be numbered in a single series on the footer of the page to prevent errors during handling. It is recommended that the numbering format "**Part B - Page X of Y**" is used.

## [Letters of Commitment

**Partner organisations** must include a **letter of commitment** in the proposal to demonstrate their real and active participation in the proposed network. Such letters should be scanned and included in Section B.6.

**Applicants to EJD** must also include scanned **letters of institutional commitment** from the beneficiaries awarding doctoral degrees indicating their commitment **to award joint, double or multiple doctoral degrees** within the context of the proposed project.

### Note that:

- Any inter-relationship between different participating institutions or individuals (e.g. family ties, shared premises or facilities, joint ownership, financial interest, overlapping staff or directors, etc.) **must** be declared and justified **in this part of the proposal**;
- The information in the table for non-academic beneficiaries **must be based on current data, not projections**;
- The data provided relating to the capacity of the participating institutions will be subject to verification during the grant preparation phase.

# 1. Excellence

## 1.1 Quality, innovative aspects and credibility of the research programme (including inter/multidisciplinary and intersectoral aspects)

- Introduction, objectives and overview of the research programme
- Research methodology and approach
- Originality and innovative aspects of the research programme (in light of the current state of the art and existing programmes / networks / doctoral research trainings)

## 1.1 Quality, innovative aspects and credibility of the research programme (including inter/multidisciplinary and intersectoral aspects)

The project should be divided in **Work Packages** and described in the table below. The Work Packages should reflect the research objectives. Only brief headings and overviews of the Work Packages should be presented in Table 1.1. More details in terms of actual implementation should be provided in the tables under section 3.1.

## 1.3 Quality of the supervision

- Qualifications and supervision experience of supervisors
- Quality of the joint supervision arrangements (mandatory for EID and EJD).

## 1.4 Quality of the proposed interaction between the participating organisations

- Contribution of all participants to the research and training programme
- Synergies between participants
- Exposure of recruited researchers to different (research) environments, and the complementarity thereof

## 2. Impact

## 2.1 Enhancing research- and innovation-related human resources, skills, and working conditions to realise the potential of individuals and to provide new career perspectives

- Please explain the impact of the research and training on the fellows' careers.

## 2.2 Contribution to structuring doctoral/early-stage research training at the European level and to strengthening European innovation capacity, including the potential for:

- a) Contribution of the non-academic sector to the doctoral / research training (as appropriate to the implementation mode and research domain)
- b) Contribution to developing sustainable joint doctoral degree structures (for EJD mode only)

## 2.3 Effectiveness of the proposed measures for communication and dissemination of results

- Communication and public engagement strategy of the project
- Dissemination of the research results
- Exploitation of results and intellectual property

# 3. Implementation

### 3.1 Overall coherence and effectiveness of the work plan

- Work Packages description;
- List of major deliverables, including the awarding of doctoral degrees, where applicable;
- List of major milestones
- Fellow's individual projects,
- Gantt Chart, including secondment plan (please use template)<sup>15</sup>.

<sup>15</sup> Note that although the Gantt Chart will be assessed under section 3, the chart itself does not count towards the page limit and should be included under section 4.

## 3.2 Appropriateness of the management structure and procedures

- Network organisation and management structure, including financial management strategy, strategy for dealing with scientific misconduct
- Joint governing structure (mandatory for EID and EJD projects)
- For EJD, joint admission, selection, supervision, monitoring and assessment procedures
- Supervisory board
- Recruitment strategy
- Progress monitoring and evaluation of individual projects
- Risk management at consortium level (including table 3.2a)
- Intellectual Property Rights (IPR)
- Gender aspects (both at the level of recruitment and that of decisionmaking within the project)

### 3.3 Appropriateness of the infrastructure of the participating organisations

Explain the appropriateness of the infrastructure of each participant, as outlined in Section 5 (Participating Organisations), in light of the tasks allocated to them in the project.

### 3.4 Competences, experience and complementarity of the participating organisations and their commitment to the programme

- Consortium composition and exploitation of partners' complementarities: explain the compatibility and coherence between the tasks attributed to each beneficiary in the project, including in light of their experience;
- Commitment of beneficiaries and partner organisations to the programme (for partner organisations, please see also sections 4 and 6).

## 5. Participating Organisations

All organisations (whether beneficiaries or partner organisations) must complete the appropriate table below. Complete one table of maximum one page per beneficiary and half a page per partner organisation (minimum font size: 9).

For **beneficiaries**:

Beneficiary Legal Name	
General Description	
Role and Commitment of key persons (including supervisors)	<i>Including names, title and the foreseen extent of involvement - in <u>percentage of full-time employment</u> - of the key scientific staff who will be involved in the research, training and supervision</i>
Key Research Facilities, Infrastructure and Equipment	<i>Demonstrate that each team has sufficient facilities and infrastructure to host and/or offer a suitable environment for supervising the research and training of the recruited Early-Stage Researchers</i>
Independent Research premises	<i>Please explain the status of the beneficiary's research facilities – i.e. are they owned by the beneficiary or rented by it? Are its research premises wholly independent from other beneficiaries and/or partner organisations in the consortium?</i>
Previous Involvement in Research and Training Programmes	<i>Detail any relevant EU, national or international research and training projects in which the partner has previously participated</i>
Current Involvement in Research and Training Programmes	<i>Detail any relevant EU, national or international research and training projects in which the partner is currently participating</i>
Relevant Publications and/or Research / Innovation Product	<i>Max. 5</i>

For **partner organisations**:

Partner Organisation Legal Name	
General description	
Key Persons and Expertise	
Key Research Facilities, Infrastructure and Equipment	
Previous and Current Involvement in Research and Training Programmes	
Relevant Publications and/or Research / Innovation Product	<i>Max. 3</i>

## [Tips on how to write a successful proposal]

- Use standard and concise english
- Make the text clear, well structured, and fluent
- Plan an index, use short paragraphs, point out key passages, schematise the concepts
- Insert only information relevant to the project
- Answer to ALL! the questions indicated in the form
- Coherent language in all proposal paragraphs (e.g. service – system, experimentation – test etc.)

## [Tips on how to write a successful proposal]

- Do not assume that the evaluator is a hardcore expert in the field
- a clear description of the research methodology
- Explain why it is original, inovative, timely and relevant
- Highlight interdisciplinary/multidisciplinary aspects of the proposal
- why the research and training presented will bring new skills and knowledge to the candidate
- Complementary skills
- Demonstrate its feasibility, risk analysis, and, if possible, show a plan B

## [Tips on how to write a successful proposal]

Make the proposal readable. Evaluator has few hours to read your proposal and evaluate it.

Write in bold, use cursiv, underline.

Better one table than thousand words...

Eleven centres and research groups active in andrology and medical sexology have been selected: Leuven (B), Muenster (D), Leipzig (D), Barcelona (E), Rome (I), Florence (I) (these biomedical centres also have interdisciplinary connections with psychological and psychosexual research groups and inter sectorial connections with research groups in the sectors of sociology and science of communication; complementary training described in point B2.1 will be organised in these Centres); Malmoe (S), Manchester (UK), Giessen (D), Tartu (EE), Lodz (PL) (centres with clinical and bio-molecular facilities). See also point B3 with the individual Centres description.

As previously noted, these centres are already linked by a common training project under the EAA. This new research and training project will be able to make use of an already effective network.

Also inserted in the Network will be the companies most involved in producing the latest generation products active in the andrological field: Serono, Organon, Ferring, Sigma Tau producing hormones and drugs proposed for therapy male infertility, Eli Lilly, Pfizer, Bayer, and GSK, manufacturer of inhibitors acting on erectile dysfunction, Johnson & Johnson, manufacturer of serotonin reuptake, specifically aimed at treating premature ejaculation, Schering-Plough, manufacturer of testosterone formulations with innovative, specific administration methods dedicated to andrology. The complementary training described in point B2.1 will be organised by experts:

### CHANGE PERSPECTIVE

Your proposal must be written in order to **resolve European problems** identified in EU policies

Never give the impression that you are writing a project because trying to get funding!
